The Bakery

When early in the morning a delicate waft of chocolate and pastry pervades through the house then the confectioners at the Kohlmarkt have started their working day. In order to produce the freshest of goods at the highest level of quality the bakery of the K.u.K. (Imperial and Royal) Court Confectionary Bakery Demel was relocated back to the site at the Kohlmarkt.

On several floors the confectioners produce the typical Demel specialities as they have been doing for over 200 years; these include cream cakes, the finest tea scones and cakes as well as home-made confectionary, all precisely and skilfully hand-made. All products are made from specially chosen and natural ingredients.

Unique is the vitreous show bakery on the ground floor where the curious coffeehouse visitors can look over the shoulders of the master bakers as they display their craftsmanship. From the early hours of the day to the late afternoon apple strudels are drawn and laid out, Sacher tortes are decorated and wonderful adornments are produced.
